

# CHÂTEAU DE MAISONS

A masterpiece of classical  
17th century architecture

## CHÂTEAU DE MAISONS

Dominating a loop of the Seine, the Chateau de Maisons was constructed in the 17th century by François Mansart, while at the peak of his powers. The arrangement of the facades, harmony of the interior volumes and decoration of the ceremonial rooms reveal this man's architectural genius. From grand receptions, the richly-decorated function room welcomed famous guests: kings and princes, emperors and marshals, as well as writers and thinkers.
