Sustainability

LES HÔTELS BAVEREZ

a parisian family story

EXCELLENT INSULATION

At the hotel Regina, insulation is reinforced with double windows that create an air lock, very efficient against extraneous noises and temperature variations. The hotel is certified by the “Quiet Hotel Room” program.

WATER CONSERVATION PRACTICES

- For stays of more than 1 night, sheets are not systematically removed for cleaning (unless needed or requested of course). Along with the continuous towel reuse incentive.
- Bathrooms are equipped with low-flow showerheads and taps, dual flush.

NATURAL RESOURCES PRESERVATION

- Miniature bottles have been cut down for bulk-size toiletries, while other supplies are in biodegradable packaging.
- Plastic water bottles have been replaced by cardboard bottles for guests as well as for the hotels’ staff. Similarly, plastic bags are waived for paper or fabric reusable bags.
- Many documents and tools have been dematerialized, such as the in-room directory, some menus, suppliers’ invoices, staff internal information and documents, online employment/human resources portal... in order to reduce excessive paper use.
